## THE FACTORY TOUR

### 1. HISTORY OF WATERFORD

Your tour starts with an Audio Visual Presentation explaining the proud heritage of Waterford Crystal, and why its craftsmanship and design skills are famous the world over.

### 2. BLOWING & FURNACE ROOM

Witness the age-old art of making the wooden moulds used by blowers when shaping the molten crystal. Watch as the blower literally breathes new life into the molten crystal.

### 3. QUALITY CONTROL

At each stage of the production process the crystal is carefully inspected to ensure each piece meets Waterford Crystal's standards. Only pieces that satisfy these standards make it to the next stage.

### 4. CUTTING ROOM

Here master craftsmen rely on an abundance of skill and dexterity to cut the pattern onto the crystal using diamond tipped wheels. Too much, or too little pressure, and the cutter will have to start all over again.

### 5. SCUPLTING & ENGRAVING

The sculptor uses his skill to sculpt shapes from solid blocks of crystal. The engravers then use copper wheels to engrave trophies and limited edition pieces that can take hundreds of hours to complete.

### 6. EXHIBITION & RETAIL STORE

In our Exhibition area, you'll find replicas of some of the world's most famous sporting trophies and an amazing collection of statement pieces created over the years.

With the largest selection of Waterford Crystal in the world, our opulent Retail Store gives you the perfect chance to remember your unforgettable day...
